

The MONLIP Community is an educational network based in Barcelona that integrates different schools with a common focus: to offer high-quality, inclusive, and transformative education. The community's name is inspired by the Catalan word *món*, meaning world, and the acronym LIP, which stands for "language, integration, and progress" and also "language immersion programs".

BCNLIP social impact

Part of the value you pay for your courses funds the BCNLIP Foundation's language courses for people at risk of social exclusion.
